

KHAJANCHI
EXPORTS

*A treasure trove from
the rich fields of India*

Spread over 30,000 square feet, Khajanchi Exports is built on a foundation of precision, purity, and purpose. Our fully integrated facility houses in-house cleaning, processing, and automatic packing systems, complemented by a dedicated cold storage facility that preserves freshness at every step. As an ISO 22000–certified company, food safety, hygiene, and quality are not just standards we follow - they are values we live by.

India - the land of spices and soulful curries - is more than a cuisine. It is a story of heritage, aroma, and flavour passed down through generations. From luscious mangoes and indulgent paneer butter masala to smoky tandoori delights and fragrant biryanis, every dish carries the soul of India.

At Khajanchi Exports, we carry this soul across borders. For four decades, we have been curating and exporting the finest Indian food products, bringing the authentic taste of India to global tables, season after season.

Our brand Uttam - meaning “The Best”- is a promise. A promise of authentic flavours, uncompromising quality, and exceptional taste. With a strong presence across Australia, New Zealand, the UAE, and Europe, Uttam has earned the trust of markets that demand nothing but excellence.

Every product under the Uttam name is crafted with care -from responsibly sourcing raw ingredients to meticulous processing, hygienic packaging, and temperature-controlled storage. Our state-of-the-art infrastructure and stringent quality controls ensure that what reaches you is always fresh, clean, and wholesome. We go beyond products. We offer flexibility, reliability, and partnership - tailoring procurement, processing, and packaging to meet your exact requirements.

You name it. We deliver it. Pure. Authentic. Uttam.
